

Oxford Textbook of Orthopedics and Trauma

This is a new 3-volume, major reference work from the Oxford Textbook stable. The Oxford Textbook of Orthopedics and Trauma provides comprehensive coverage of the science and theory, as well as the practice skills and operative techniques required to deliver modern orthopedic and trauma care.

Source: Oxford University Press (OUP)

Author(s): Christopher Bulstrode; Joseph Buckwalter; Andrew Carr; Larry Marsh; Jeremy Fairbank; James Wilson-MacDonald and Gavin Bowden

ISBN-10: 0192626817

ISBN-13: 9780192626813

The text is divided into five major sections covering fundamental science, adult orthopedics, trauma, pediatric orthopedics and pediatric trauma. The fundamental science section has a major focus on tumors, and the adult section covers both joint and bone systems of the body. With a transatlantic editorial team and more than 300-specialist chapter authors this book is unsurpassed in its field.
