The 16th edition of the Handbook on Injectable Drugs brings together a wealth of information on 349 parenteral drugs commercially available in the United States and in other countries. The information in the 16th edition is accumulated from 2788 references, including 65 new to this edition. As for each previous edition, the monographs have been completely updated. In addition to the updated monographs, 6 additional monographs on parenteral drugs that are new to this edition are presented. These include the following drugs:

- * Doripenem
- * Esomeprazole sodium
- * Hydroxyethyl starch 130/0.4 6% in sodium chloride 0.9%
- * Ibuprofen lysinate
- * Insulin lispro
- * Moxifloxacin hydrochloride
