ISBN-13: 9781585282272

First published in 1959, the "Big Red Book," as it's come to be known, has gone the extra mile for pharmacists and healthcare professionals seeking answers to the most detailed questions. It provides more extensive evidence-based data than any other drug reference.

Written and published by pharmacists and reviewed by over 500 experts, AHFS Drug Information is a unique and invaluable reference for all healthcare professionals. References are evidence-based and peer-reviewed, compiled without the influence of manufacturers, insurers, regulators, or other interested parties.

Written and published by pharmacists and reviewed by over 500 experts, AHFS DI is a unique and invaluable reference for all healthcare professionals.

- n The complete text of over 2,000 evaluative monographs covering over 110,000 commercially available and experimental drugs in the United States
- n Expanded and revised content for 2009, including many new monographs
- n Extensive off-label uses include information on uses, dosages, and routes and/or methods of administration that may not be included in the FDA-approved labeling for the drug
- n Expert advice and peer reviewed by over 500 medical scientists, physicians, pharmacists, pharmacologists, and other professionally qualified individuals
- n Over 40,000 represented medicines and over 100,000 drug products
- n Over 70,000 uniquely cited references
- n Only well-established, referenced laboratory test interferences
- n Cancer-specific codified levels of evidence
