

Visual Diagnosis in Pediatrics

Visual guide to the rapid and accurate diagnosis of pediatric problems.

Source: Lippincott Williams & Wilkins (LWW)

Author(s): Esther K. Chung MD, MPH; Julie A. Boom MD; George A. Datto III, MD; Paul S. Matz MD

ISBN-10: 0781756529

ISBN-13: 9780781756525

Greatly assist busy practitioners in recognizing disease entities and distinguishing among entities that appear similar.

Organized by anatomic site, the book covers 73 presenting problems. Each chapter includes bulleted clinical pearls on the history and physical examination. A differential diagnosis table lists all common diagnoses with ICD-9 codes and the distinguishing characteristics for each diagnosis. Clinical photographs of each entity are then shown, including ethnic variations where relevant.

- n 500 full-color photographs of clinical entities, including ethnic variations where relevant
- n Succinct, bulleted clinical pearls on key points in the history and physical examination that help distinguish among entities that appear similar
- n Differential diagnosis tables list all common diagnoses and include distinguishing characteristics and complications
- n Covers 73 presenting problems, organized by anatomic site
- n Table of Contents lists presenting problems, so reader can quickly turn to the chapter on the problem of interest
