

## Irwin and Rippe's Intensive Care Medicine

***Irwin and Rippe's Intensive Care Medicine is a comprehensive textbook covering both the theoretical and practical aspects of medical and surgical critical care. The seventh edition is again presented in a single volume and retains the organizational structure established in the fifth edition--a major overhaul from its two-volume predecessors. The text is generally organized on an organ-systems approach, but has popular sections such as procedures, overdoses poisonings, trauma, and surgical problems in the ICU.***

Author(s): Irwin, Richard S.; Rippe, James M.

ISBN-10: 160831183X

ISBN-13: 9781608311835

Thoroughly updated for its seventh edition this classic reference remains an unsurpassed source of definitive, practical guidance on adult patient care in the ICU. It provides encyclopedic, multidisciplinary coverage of both medical and surgical intensive care and includes a "how-to" atlas of procedures and a new section on noninvasive monitoring. Each chapter, completely revised, identifies advances in management based on randomized controlled clinical trials. The cardiology section has been completely rewritten to reflect advances in management of acute coronary syndromes. Also included are extensive updates on management of COPD, diabetes, oncologic emergencies, and overdoses and poisonings.

- n --NEW: Building a healthy work environment
- n --NEW: Effective collaborative communication by critical care team members
- n --NEW: Family centered critical care
- n --NEW: Role of the APN in critical care
- n --NEW: Updated information on COPD
