

## LWW Doody's Core Title Collection 2009

***198 titles in health medicine, medicine, and nursing recommended by healthcare professionals and medical librarians***

---

Source: Lippincott Williams & Wilkins (LWW)

Each of these books has been selected by academically-affiliated healthcare professionals and medical librarians as must-have resources for students and professionals in a given discipline.

Doody's Core Titles™ is recognized as the replacement for Brandon/Hill Select lists of recommended titles for institutional purchase. A Core Title is a book that represents essential knowledge needed by professionals or students in a given discipline. Up to three librarians score each title on a scale of 0-3 in five fundamental collection development criteria: authoritativeness of author and publisher; scope and coverage of the subject (including timeliness); quality of content; usefulness and purpose; and value for money. Scores are averaged to provide an overall score for each title.

- n 10 books in the collection have received a 3, the highest score possible
- n 142 books have received a score of 2.5 and above
- n 55 books have been selected as Doody's Essential Purchase Titles, resources that every institution should offer users—ask an Ovid Account Representative about our LWW Doody's Essential Collection!
