

ICONDA

ICONDA -- The International CONstruction DAtabase -- the bibliographic database of the International Council for Building Research, Studies and Documentation (CIB) covers worldwide technical literature on all fields of building construction, civil and construction engineering, and architecture and town planning.

Source: Fraunhofer Information Center for Regional Planning and Building Construction (IRB)

ICONDA contains references taken from sources in more than 20 different countries. Each reference has abstracts and detailed keywords in English which are provided to the user to assist in the decision of what to read in full.

ICONDA sources include periodicals, books, research reports, conference proceedings, business reports, theses, and non-conventional literature that is normally outside the public domain, with coverage dating back to the launch of the database in 1976.

More than 400 periodicals, among them 47 from the United Kingdom, and over 20 from the USA, are regularly scanned for ICONDA by 17 renowned international organizations and companies.

Broad Subjects:

Physical Science & Engineering

Specific Subjects:

Engineering

Access Options:

- n Ovid Internet, updated Monthly
- n SilverPlatter Internet, updated Monthly
