

International Pharmaceutical Abstracts (IPA)

Worldwide, comprehensive bibliographic coverage of pharmaceutical science and health related literature

Source: Thomson Scientific, Inc.

Produced in co-operation with the American Society of Health-System Pharmacists International Pharmaceutical Abstracts includes 30 years of in-depth indexed reference to the world pharmacy (in the broadest sense) literature; plus, related health, medical, cosmetic journals, and state pharmacy journals; abstracts of presentations at major pharmacy meetings are also included. IPA is unique in its coverage-no other service provides this. The numerous references to alternative and herbal medicine (over 10,000 references) are an example of this unique coverage.
