

PSYNDEXplus with TestFinder

PSYNDEX is the most comprehensive abstract database (not full-text) of psychological literature, audiovisual media, intervention programs, and tests from the German-speaking countries.

Source: Zentrum für Psychologische Information und Dokumentation (ZPID) at the University of Trier

PSYNDEX contains two database segments: PSYNDEX Literature and Audiovisual Media with records of psychological publications from authors in the German-speaking countries, audiovisual media, and extensive descriptions of intervention programs; PSYNDEX Tests with descriptions of tests in use in the German-speaking countries.

Approximately 30% of the records are in English or have English abstracts. All records have English title translations, descriptors, classification categories, and key concepts (literature and audiovisual media records only); the database is searchable in German and English.

Subject Coverage: Literature & Audiovisual Media: Psychology, including aspects of psychiatry, medicine, education, sociology, sport, linguistics, business management, criminology relevant for psychology. Tests: Psychology, education

Scope:

Literature & Audiovisual Media:

Since 1977: Over 215,000 literature records (yearly, approximately 8,500 records), including over 2,000 descriptions of audiovisual media (yearly, approximately 200 records). More than 60,000 records are in English or have an English abstract.

Tests:

Since 1945: Over 5,800 test records (yearly, approximately 200 records)
