

## Forest Science Database

***The Forest Science Database is the world's leading bibliographic database for forest, wood science and agroforestry research.***

*Source: CAB International*

Compiled by specialists at CABI, the Forest Science Database currently contains more than 810,000 abstracts and citations, with 30,000 records added annually.

Providing access to years of research from all over the world, the Forest Science Database provides an ideal source for foresters, scientists, environmental consultants, policy makers and others actively involved in research or decision-making in agroforestry, forestry, wood science, and the forest and timber industries.

The Forest Science Database includes over 70 years of information on:

- \* Agroforestry systems: sociological, cultural and economic aspects
- \* Climate change
- \* Deforestation
- \* Forest ecology
- \* Forest economics
- \* Forest logging
- \* Forest management
- \* Land use
- \* Non-wood forest products
- \* Pests, diseases and pest control
- \* Silviculture
- \* Social forestry
- \* Timber trade and marketing
- \* Tree biology
- \* Urban forestry
- \* Wood products
- \* Wood properties

**Broad and Specific Subjects:**

n Science

Earth & Geological Sciences- Forestry, Ecology, Crop Science & Plant Biology, Biotechnology, Plant Breeding and Genetic Resources

**Access Options:**

n Ovid Internet, updated Quarterly

n SilverPlatter Internet, updated Quarterly

n SilverPlatter Local, updated Quarterly

**Interface:**

n OvidSP

**Other Information:**

n Coverage: 1939 - Present

n Data Type: Bibliographic with Abstracts

n Records Added Annually: 30,000+

n Print Equivalent: Forestry Abstracts; Agroforestry Abstracts; Forest Products Abstracts

n Number of Records: 810,000+
