

BIOSIS Archive

BIOSIS Archive presents a targeted life sciences view – including many unique titles not found even in Web of Science. In addition to extensive journal coverage, these archives also include items from proceedings, patents and books.

Source: Thomson Scientific, Inc.

BIOSIS Archive enables researchers to look at past works with the added perspective of today's knowledge.

Broad and Specific Subjects:

n Clinical Medicine

Neurology

n Life & Biomedical Sciences

Anatomy; Biochemistry & Biophysics; Biomedical Engineering; Biotechnology; Cell Biology; Development Biology; Embryology; Food Science & Nutrition; Histology; Microbiology; Molecular Biology; Neuroanatomy; Neuroscience; Physiology

n Pharmacology

Pharmacology

n Science

Animal Sciences- Aquaculture and Fisheries, Zoology

Earth & Geological Sciences- Agriculture, Botany, Ecology

Aquatic Sciences; Biodiversity Conservation; Biology; Genetics & Genomics

Access Options:

n Ovid Internet, updated None

n SilverPlatter Internet, updated None

Interface:

n OvidSP

Other Information:

n Coverage: 1926 -1968

n Data Type: Bibliographic with Abstracts

n Number of Records: 3,500,000+
