

AGRICOLA

The most comprehensive source of bibliographic citations covering US agricultural and life sciences information.

Source: US National Agricultural Library

AGRICOLA offers vital agricultural information from 1970 to the present. It contains over 3.7 million citations to journal articles, monographs, theses, patents, software, audio-visual materials, and technical reports related to agriculture. These records describe publications and resources encompassing all aspects of agriculture and allied disciplines, including animal and veterinary sciences, entomology, plant sciences, forestry, aquaculture and fisheries, farming and farming systems, agricultural economics and earth and environmental sciences. AGRICOLA serves as the document locator and bibliographic control system for the NAL collection. The extensive file provides comprehensive coverage of newly acquired worldwide publications in agriculture and related fields. AGRICOLA is available in two year spreads; 1970-Present and 1984-Present.

AGRICOLA from Ovid offers a unique bonus - FREE full text via our exclusive Database Link Packages! To view a list of free and open access journals as well as the range of authoritative Internet resources available, [click here](#).
