Ovid Nursing Collection I

22 premier nursing journals in a cost-effective, convenient package

Source: Elsevier, Janetti Publications, Inc., Lippincott Williams & Wilkins (LWW), National League for Nursing, RCN Publishing Company, Sage Publications, Inc., University of Chicago Press

This collection has been carefully designed to bring you only the finest nursing journals available, delivered via OvidSP, an interface that provides unparalleled search and linking tools for the expert user to the novice.

You'll benefit from the top nursing information available today from the world's leading publishers and packaged to fit your institution's budget, within a searching environment that allows you to take that information to the next level.

- n The most up-to-date, respected nursing titles for your clinical decision and research support
- n 100% searchable full text - every word, graphic and caption, cover to cover
- n Unlimited access to all tables of contents and bibliographic citations for every journal, plus free tables of contents for more than 1,200 biomedical e-journals
- n Millions of links possible - from full text to full text, full text to bibliographic databases, external URLs, and more!
