

European Journal of Neurology

Published on behalf of the European Federation of Neurological Societies

Source: Wiley-Blackwell

Author(s): François Boller

ISSN: 13515101

EISSN: 14681331

The European Journal of Neurology covers all areas of clinical and basic research in neurology. Emphasis is placed on major diseases or large clinical and socio-economic importance (dementia, stroke, epilepsy, headache, multiple sclerosis, movement disorders, and infectious diseases). The journal provides a forum for European activity in clinical neuroscience and medical practice and help strengthen the links between research workers and clinicians in Europe and other parts of the world.

In addition to original papers, the journal publishes frequent review and update papers, letters to the editor, book reviews, reports and news. Important articles can be fast-tracked. The journal also publishes the official EFNS taskforce papers.
