

Journal of Clinical Engineering

For more than two decades, the Journal of Clinical Engineering has been the leading independent journal in the field providing a balance of practical, theoretical, and applied papers, as well as focused, hands-on feature articles.

Source: Lippincott Williams & Wilkins (LWW)

Author(s): Levin-Epstein, Michael

ISSN: 03638855

This quarterly journal keeps hospital clinical engineers, biomedical equipment technicians, health care planners and consultants current on topics including industry trends and developments, clinical engineering management, FDA regulation, quality control, legal developments, device management and biomedical assessment.

Specialists read the journal for advice on running a clinical engineering department, cost-effective resource management, hazard analysis and quality assurance, regulatory affairs and civil litigation, applying today's research to the clinical setting, and more.
