Source: Thieme Medical Publishers

ISSN: 07366825

EISSN: 10988793

Facial Plastic Surgery is a quarterly review journal that publishes topic-specific issues covering areas of aesthetic and reconstructive plastic surgery as it relates to the head, neck, and face. The journal's scope includes issues devoted to scar revision, periorbital and mid-face rejuvenation, facial trauma, facial implants, rhinoplasty, neck reconstruction, cleft palate, face lifts, as well as various other emerging minimally invasive procedures. Authors provide a global perspective on each topic, critically evaluate recent works in the field, and apply it to clinical practice.
