Journal of Perinatal Medicine

The official journal of the World Association of Perinatal Medicine, the Journal of Perinatal Medicine is a truly international forum covering the entire field of perinatal medicine.

Source: Walter De Gruyter

Author(s): Joachim W. Dudenhausen

ISSN: 03005577

EISSN: 16193997

The journal is an essential news source for all those obstetricians and neonatologists who wish to keep abreast of progress in obstetrical and neonatal research.

Issues feature:

- * review articles providing coverage of theoretical and practical points of view in a particular field
- * original contributions reporting on new results, particularly from the clinical and experimental areas
- * short communications that ensure rapid publication of new/preliminary results
- * technical notes describing the characteristics of new instruments of methodological improvements

All contributions submitted for publication are critically reviewed by at least two renowned experts in the field in order to ensure the constant high quality of the journal.
