

International Journal of Obesity

Source: Nature Publishing Group

Author(s): Professor Ian Macdonald, Professor Richard Atkinson

ISSN: 03070565

EISSN: 14765497

International Journal of Obesity provides a multi-disciplinary forum for the study of this important area of research, and is renowned for publishing cutting-edge articles from authors around the world.

The journal covers basic, clinical and applied studies in biochemistry, physiology, genetics and nutrition, together with molecular, metabolic, psychological and epidemiological aspects of obesity and related disorders.

The journal will appeal to clinicians and researchers working in obesity, diabetes and related disorders, dietetics, psychology, epidemiology, metabolic function, biochemistry, physiology, molecular biology and genetics.
