

Journal of Petrology

The Journal of Petrology provides an international forum for the publication of high quality research in the broad field of igneous and metamorphic petrology and petrogenesis.

Source: Oxford University Press (OUP)

Author(s): Margaret Wilson

ISSN: 00223530

EISSN: 14602415

Papers published cover a vast range of topics in areas such as major element, trace element and isotope geochemistry and geochronology applied to petrogenesis; experimental petrology; processes of magma generation, differentiation and emplacement; quantitative studies of rock-forming minerals and their paragenesis; regional studies of igneous and meta morphic rocks which contribute to the solution of fundamental petrological problems; theoretical modelling of petrogenetic processes.

Collections:

n Oxford University Press Collection

Broad and Specific Subjects:

n Science

Earth & Geological Sciences- Geology & Geosciences

Access Options:

n Ovid Internet, updated Monthly

Interface:

n OvidSP

Other Information:

n Full Text Coverage: Vol 37, issue 1 - Present

n PDF Coverage: Vol. 37, issue 1 - Present
