

Brain

Source: Oxford University Press (OUP)

Author(s): J. M. Hunter

ISSN: 00068950

EISSN: 14602156

Since 1877, Brain has always provided researchers and clinicians with the finest original contributions in neurology. Its citation rating has been one of the highest for neurology journals, and it has consistently published papers which have become classics in the field. Leading studies in neurological science are balanced with clinical articles, and because all papers are submitted on disk, we've shortened our production time so you can read the best research as it happens without delay. The editorial board reflects both the journal's truly international readership and wider coverage.

Recommended by:

Listed on the Core Collection of Medical Books and Journals (Hague List)
