

Drug Safety

Drug Safety, the official journal of the International Society of Pharmacovigilance (ISoP), is the premier international journal covering the disciplines of pharmacovigilance, pharmacoepidemiology, benefit-risk assessment, risk management, and medication error prevention.

Source: Springer Science+Business Media

Author(s): Rosie Stather

ISSN: 01145916

With expert evaluations of drug treatment safety issues, Drug Safety specializes in definitive reviews on the epidemiology, clinical features, prevention and management of adverse effects of individual drugs and drug classes.

Benefit-risk assessments provide an in-depth review of adverse effect and efficacy data for a drug in a defined therapeutic area.

Also featured are reviews covering drug use in particular 'at-risk' patient groups, concept reviews on methodology, editorials and commentaries on topical issues and high quality original research focusing on the clinical implications of drug safety treatment issues.
