

Journal of Family Practice

The Journal of Family Practice is a peer-reviewed scientific journal specifically intended to meet the needs of the specialty of family medicine.

Source: Quadrant HealthCom, Inc.

ISSN: 00943509

The Journal of Family Practice provides evidence-based reviews, timely commentary, and ongoing research on a wide range of topics, from asthma to heart disease, diabetes to stroke. Peer-reviewed. Includes full-text online access.

The Journal is committed to:

1. Meeting the information needs of family physicians.
2. Publication of evidence-based secondary work that translates the results of the most relevant, valid research into a form most useful for practicing family physicians.
3. Exploration of electronic publication as a means to enhance and supplement dissemination of original research and evidence-based information to family physicians and family medicine researchers.
