

Archives of Pediatric & Adolescent Medicine

Source: American Medical Association (AMA)

ISSN: 10724710

EISSN: 15383628

Archives of Pediatrics & Adolescent Medicine, the oldest journal in US pediatric literature, is a peer-reviewed, primary source journal. It provides a forum for dialogue on a range of scientific, clinical, and humanistic issues relevant to the care of pediatric patients, from infancy to young adulthood. The journal's core articles are original clinical studies and reviews by experts. In addition to "The Pediatric Forum," the Archives also includes abstracts, editorials, practice commentaries, case quizzes, and articles on sports medicine and practice management.
