Histopathology

Source: Blackwell Publishing

ISSN: 03090167

EISSN: 13652559

Histopathology is an international journal whose primary purpose is to publish original histopathological material having clinical application in the study of human disease. The Journal is designed to be of practical importance to the diagnostic histopathologist and to investigative workers in clinicopathological fields of study contributing to the better understanding of human disease. Histopathology publishes critical and authoritative articles on current research relating directly to clinical disease including: electronmicroscopic studies, histochemical studies, immunological studies, and experimental studies.
