

Holistic Nursing Practice: the Science of Health and Healing

A peer-reviewed bimonthly journal that explores holistic models of nursing practice

Source: Lippincott Williams & Wilkins (LWW)

Author(s): Donnelly, Gloria F.

ISSN: 08879311

Content emphasizes complementary traditional and holistic nursing and healthcare practices. Articles include theory-based interventions and their outcomes, including: innovations in holistic nursing practice; research related to holistic nursing practice, health care, and policy; and values and ethical-legal issues related to holistic nursing practices. The holistic approach is a worldview that emphasizes the potential for health and healing in human systems rather than on disease process and deficit.
