Circulation publishes the most important papers from across the world of cardiology every week. Publishing a combination of basic, translational, clinical, and population research, the journal publishes the most authoritative articles and details the implications for application in your daily practice to improve patient outcomes.

- n Original articles on both the clinical advances that are changing practice and the latest scientific research that points the way to tomorrow's breakthroughs
- n Editorial reviews from world-leading authorities give a unique perspective on the entire field
- n The latest clinical guidelines keep practicing MDs up-to-date
- n Special sections like Contemporary Reviews in Cardiovascular Medicine and Basic Science for Clinicians further the understanding of the clinical and scientific issues affecting cardiology both today and tomorrow
- n European Perspectives in Cardiology highlights the issues, initiatives, and latest findings affecting cardiologists across Europe
