

## Journal of Clinical Endocrinology and Metabolism

Source: *Endocrine Society*

Author(s): Editor in chief: *John P. Bilezikian*

ISSN: 0021972X

The Journal of Clinical Endocrinology & Metabolism is the world's leading peer reviewed journal of clinical practice and applied clinical research. Each issue provides fast and in depth coverage of diabetes, reproductive endocrinology, growth hormone therapy, thyroid disease, and other critical areas of clinical endocrinology. Regular features highlight current topics in clinical medicine, such as clinical studies, clinical case seminars, management of endocrine disorders practice management issues, original patient oriented research studies, and other significant new endocrine studies related to human physiology and disease. According to the latest ISI Journal Citation Report, JCE&M articles were cited 30,479 times in 1996. It has the highest Impact Factor ranking (#10) of any clinical journal in the ISI category of endocrinology and metabolism.
