Oral Surgery, Oral Medicine, Oral Pathology, Oral Radiology, & Endodontics is the only major dental journal that provides a practical and complete overview of the medical and surgical techniques of dental practice. Sections cover oral surgery, oral medicine, oral pathology, endodontics, and oral and maxillofacial radiology. Many areas of current clinical interest, such as dental implants, treatments of HIV-infected patients, and evaluation and treatment of TMJ disorders, are examined. The journal is the official publication for eight societies.
