

Archives of Ophthalmology

Source: American Medical Association (AMA)

ISSN: 00039950

EISSN: 15383601

Archives of Ophthalmology publishes peer-reviewed original contributions and observations of interest to clinicians and researchers. Special departments in this primary source journal provide in-depth information on new instruments, surgical techniques, socioeconomic, epidemiology and biostatistics. Color photography provides clear illustration of articles' key points. An occasional feature highlights the global practice of ophthalmology.
