

Sports Medicine (journal)

The world's premier sports medicine review journal offers readers practical reviews of current research and current practice in sports medicine and exercise physiology.

Source: Adis International

Author(s): Jeremy Shanahan

ISSN: 01121642

EISSN: 11792035

For over 20 years Sports Medicine has been the primary reference source relied upon by the world's leading medical academic institutions and libraries. Sports Medicine offers invited practical reviews of exercise science and clinically oriented reviews on the etiology, epidemiology, management, treatment and prevention of sports injuries as well as access to the latest articles by the world's leading experts in sports medicine and exercise science.

Designed as a superb reference source for physicians, sports medicine specialists, physiotherapists, exercise physiologists, team doctors and trainers, regular features of Sports Medicine include: sports injury prevention and treatment; exercise for health; and drugs in sport and recommendations for training and nutrition.
