The fifteenth edition of this essential, classic text offers a succinct and well-illustrated aide-memoire that will be indispensable to trainee and established doctors in both general and hospital practice, and an invaluable reference for medical students.

For nearly a century, this book has been unparalleled in providing the clinician with invaluable assistance in quickly and correctly diagnosing a disease from a whole range of presenting symptoms.

Arranged alphabetically by presenting symptoms, the text helps the reader to identify each presentation, describes the different diagnoses that it could represent, and explains the signs and tests used to make a diagnosis. Color photographs of the highest quality have been included to help aid diagnosis at a glance.
