

Ovid®

Atlas Of Procedures in Surgical Oncology with Critical, Evidence-Based Commentary Notes

Rely on Ovid as the trusted solution that transforms research into results

This unique book presents a series of concisely written technical notes on common procedures in surgical oncology. Each operation is illustrated with pictures framing precise technical points.

Written by top European experts, this volume will provide an invaluable resource for young surgical oncologists to familiarize with technical details, develop a critical approach and expand their surgical skills. It will also be a useful source of reference for medical oncologists, radiologists, radiotherapists and nurses, as well as final-year medical students.
