Developed at Philadelphia’s world-renowned Wills Eye Hospital, the Color Atlas and Synopsis of Clinical Ophthalmology series covers the most clinically relevant aspects of ophthalmology in a highly visual, easy-to-use format.

Vibrant, full-color photos and a consistent outline structure present a succinct, high-yield approach to the seven topics covered by this popular series: Cornea, Retina, Glaucoma, Oculoplastics, Neuro-Ophthalmology, Pediatrics, and Uveitis. This in-depth, focused approach makes each volume an excellent companion to the larger Wills Eye Manual as well as a practical stand-alone reference for students, residents, and practitioners in every area of ophthalmology.

The updated Neuro-Ophthalmology volume includes:
Authoritative information on the most commonly encountered neuro-ophthalmologic problems, ideal for practicing ophthalmologists, neuro-ophthalmologists, and residents. Focus on recent treatment advances helps ensure that patients receive the widest range of therapeutic options. More than 200 new and updated high-quality illustrations aid in visual diagnosis and treatment planning. An easy-to-use format that covers Epidemiology and Etiology, History, Physical Examination, Differential Diagnosis, Laboratory and Special Examinations, Diagnosis, Prognosis, and Management.
