Population-Based Nursing: Concepts and Competencies for Advanced Practice

Population-Based Nursing is the first text designed specifically for the Doctor of Nursing Practice (DNP) core competencies in epidemiology and population health. This unique guide addresses essential areas of content recommended by the American Association of Colleges of Nursing (AACN) to ensure graduate students are adequately prepared to enter the nursing field.

This groundbreaking textbook provides readers with the information they need to identify health care needs at the population level and to improve population outcomes, two important core competencies outlined by the AACN for all DNP programs.
