Colorectal Surgery is an essential revision tool for general surgical trainees preparing for the FRCS examination, and in particular those declaring colorectal surgery as an area of special interest.

The handbook has been written specifically to address the curriculum designed and approved by the Association of Coloproctology of Great Britain and Ireland, the Intercollegiate Surgical Curriculum Project and the American Board of Colon and Rectal Surgeons. While aimed at senior trainees, Colorectal Surgery will also be of interest to new consultants wishing to update their knowledge of colorectal surgery, junior surgical trainees, specialist nurses dealing with patients with colorectal disease as well as general practitioners and allied healthcare professionals.
