## Clinical Neurology of Aging

Rely on Ovid as the trusted solution that transforms research into results

With a deft touch, the editors - Drs. Martin Albert and Janice Knoefel - have incorporated the geriatric care perspective and a quality-oriented approach to health care throughout the volume.

Now divided into 9 comprehensive sections, the Third Edition contains subjects ranging from geriatric assessment to pain management and palliative care. Specific sections include: Introduction to Geriatric Neurology; Neurological Assessment in Aging; Cognitive Disorders in Aging; Motor Disorders in Aging; Neuropsychiatric Illness in Aging; Sensory Disturbance in Aging; Peripheral Neurology of Aging; Disease States in Elderly; and Neurological Therapeutics.

This is the definitive reference, useful for all clinicians caring for older people and informative to those who set policies that affect research and clinical practice.
