Specialty Competencies in Clinical Neuropsychology

In this volume, Drs. Lamberty and Nelson provide a comprehensive overview of the foundational and functional competencies related to the broad field of clinical neuropsychology. The authors distill not only the most important dimensions of the current science and practice, but also delineate important future directions and challenges. Anyone interested in obtaining an extensive survey of the extant literature related to this specialty, as well as insider knowledge on important professional issues, will find this volume to be an invaluable resource.
