Diagnostic Pathology: Hepatobiliary and Pancreas

Designed for both practicing pathologists and pathologists in training, it boasts a concise, organized format and numerous high-quality images to help you quickly address everyday challenges.

Key features:
- New classification/terminology for biliary and pancreatic noninvasive intraductal tubular and papillary lesions
- Updates of variants, immunohistochemical diagnoses, diagnostic criteria, and novel molecular aspects for hepatocellular carcinoma
- Updates of molecular and immunohistochemical classification of multiple entities, including hepatic adenomas
- New grading scheme/terminology for pancreatic neuroendocrine tumors
- Immunohistochemical diagnosis of focal nodular hyperplasia
- Templated page layout, bulleted text, and a generous number of high-quality images for point-of-care clinical reference
