Essential reading for anyone undertaking resuscitation training, beginning
training in acute resuscitation specialities or wishing to update their
knowledge of advanced life support.

Competency in resuscitation is a necessity for most clinical staff, with many
attending Advanced Life Support (ALS) courses. Adult and Paediatric ALS:
Self-assessment in Resuscitation uses an innovative question-and-answer structure
and Resuscitation Council (UK) 2010 Guidelines to provide a complete overview of
all aspects of advanced life support and resuscitation in adults and children.
Comprising ten chapters of multiple choice questions, diagnostic questions, colour
photo questions and comprehensive answers, this resource aids revision of the
adult and paediatric ALS syllabus and assists readers in gaining a thorough
understanding of all aspects of resuscitation science and practice.
