Clinical in approach, practical in execution, Emergency Management in Neurocritical Care will help you perform better in pressure situations.

Acute neurological illness is traumatic for patients and their families. Physicians caring for these patients are often under great distress and need to rapidly assess the situation to allow appropriate stabilization and management.

Emergency Management in Neurocritical Care gives you the tools you need to perform under pressure in the neurocritical or emergency care unit. The no-nonsense approach corresponds to the attitude needed in both acute emergencies and in the neurocritical care unit. Packed with handy tips to improve your care of patients, and written by internationally renowned experts.
