A reference textbook that provides vital information about the 280+ most common diagnoses encountered in an ophthalmologic practice. Using the pioneered Amirsys bulleted format, the textbook presents the information you need to know in a clear, concise manner that maximizes efficiency. Each chapter distills trenchant information to the essentials, containing a highlighted key facts box that summarizes the major points of the chapter, plus detailed sections on terminology, etiology/pathogenesis, clinical issues, and management. All of the important differential diagnoses and treatment options follow so the practicing clinical ophthalmologist can find the information in the same place every time. Perhaps the most important aspect of this book is that it contains high-quality color images for every diagnosis, such as slit-lamp exam, fundus photography, ophthalmic diagnostic pictures, pathologic findings, correlative radiographic images, and richly colored graphics, all of which are fully annotated to reinforce the most important diagnostic findings.

Ophthalmology is a visual specialty and images are vital. Whether you are learning for the first time or using the book as a rapid reference, this book is a valuable resource.

Publication Year: 2013
Edition: 1st
Author/Editor: Ambati, Balamurali Krishna
Publisher: Amirsys Publishing, Inc
Doody's Star Rating: ★★★★★ Score: 94
Platform: Ovid
Product Type: Book
