Cosmetic Injection Techniques: A Text and Video Guide to Neurotoxins and Fillers

Provides all medical professionals in the field (from beginners to experienced injectors) with practical information on how to properly administer neurotoxin and filler injections for conditions such as lower eyelid roll, nasal flare, platysmal banding, marionette lines, glabellar frown lines, and much more.

Key features:
- Full color, detailed illustrations describe key anatomical landmarks and identify exact injection locations
- A unique rating system for each procedure, enabling injectors to perform techniques appropriate to their skill level
- Every commonly performed cosmetic injection procedure is covered, giving readers a comprehensive guide on how to safely and effectively perform injections

This easy-to-use manual gives facial plastic surgeons, plastic surgeons, dermatologists, oculoplastic surgeons and other medical professionals authoritative, concise information on the anatomy, techniques, precautions, complications, and post-treatment care involved in the administration of injections of cosmetic neurotoxins and fillers.
