Emphasizing interdisciplinary teamwork, this irreplaceable how-to offers clear direction on more than 120 pediatric procedures, all based on current research and international best practices.

All procedures address community care settings, with a focus on school and home nursing issues. This is the perfect clinical guidebook for nurses delivering care to children in any health care setting, and a vital text for all nursing students. This step-by-step guide covers a broad range of pediatric procedures.

- New updated content in all chapters, based on current clinical evidence, best practices, and nursing standards
- NEW chapters on pediatric health assessment; intravascular therapy peripheral lock and flush; and palliative care
- NEW Unexpected Situations scenarios and recommendations
- NEW photos and diagrams
