Created by faculty and fellows from the Infectious Diseases Division of Internal Medicine at the Washington University School of Medicine in St. Louis, this volume in the Washington Manual Subspecialty Consult Series is designed to provide quick access to the essential information needed to evaluate a patient on a subspecialty consult service.

Inside you’ll find easy-to-follow guidance for the diagnosis and treatment of infectious diseases likely to be seen by medical house officers and hospitalists. This quick reference features a revised outline format that presents information in a logical and readily accessible style. Updated content has been added to reflect advancing technologies and therapeutics. Two-color design highlights and aids retention of essential material. Bulleted lists of common problems let users review salient points at a glance.
