Operative Techniques in Hepato-Pancreato-Biliary Surgery

Features the biliary system, liver, spleen, and pancreas surgery content from Operative Techniques in Surgery, the comprehensive 2-volume set edited by Michael W. Mulholland.

Ideal for practitioners who wish to focus on mastering today’s best biliary system, liver, spleen, and pancreas surgery procedures, it guides you step-by-step through each technique in a consistent manner, using concise, bulleted text, full-color illustrations, and full-color intraoperative photographs to clearly convey exactly what to look for and how to proceed.

- Master the full range of essential procedures with comprehensive coverage of virtually every surgical procedure of the liver, pancreas, bile ducts and spleen as well as surgical management of portal hypertension.
- Select the best open, laparoscopic, or endoscopic approach for each patient with balanced coverage of the available options.
- Gain rich, complete grasp of key nuances of technique by viewing photographs and medical illustrations side by side.
- Review intraoperative considerations for each procedure before making your way through the technique.
