Heart Failure: A Case-Based Approach

This is a highly visual, case-based approach that covers the spectrum of the clinical presentation of heart failure.

Features:
• Over thirty expert authors offer a practical, visual approach to common but complex management problems in heart failure
• Demonstrates real-world clinical management decisions and applications of current guidelines and evidence through case presentations
• Discusses assessment and treatment of newly diagnosed and chronic cases of heart failure
• Addresses heart failure associated with the gamut of cardiac diseases and in patients with systemic diseases
• Provides links to video loops of select procedures
