Differential Diagnoses in Surgical Pathology: Gastrointestinal System

Rely on Ovid as the trusted solution that transforms research into results

This clinical reference uses select images of clinical and pathological findings together with succinct, expert instructions, to guide you through the decision-making process by distinguishing between commonly confused Gastrointestinal lesions.

Key features:

- Efficiently work through more than 150 differential diagnoses in GI pathology presented side-by-side for easy comparison, including the most common entities as well as selected rarer diseases.
- Get all the assistance you need at a glance with concise, bulleted summaries of clinical and pathological findings and view relevant pictorial examples on the corresponding pages.
- View high-quality images of similar-looking lesions side by side for easy comparison
