Differential Diagnoses in Surgical Pathology: Gastrointestinal System

This clinical reference uses select images of clinical and pathological findings together with succinct, expert instructions, to guide you through the decision-making process by distinguishing between commonly confused Gastrointestinal lesions.

Key features:
- Efficiently work through more than 150 differential diagnoses in GI pathology presented side-by-side for easy comparison, including the most common entities as well as selected rarer diseases.
- Get all the assistance you need at a glance with concise, bulleted summaries of clinical and pathological findings and view relevant pictorial examples on the corresponding pages.
- View high-quality images of similar-looking lesions side by side for easy comparison.
