Instructional Course Lectures Foot and Ankle

Published cooperatively with the American Orthopaedic Foot & Ankle Society, this specialized volume of "Instructional Course Lectures" focuses on the diagnosis and management of foot and ankle disorders that can present in a clinic.

A team of exceptional orthopaedic surgeons specializing in foot and ankle deliver additional insights on a selection of clinically-relevant conditions, diseases, treatments and expert techniques as presented at recent Academy Annual Meetings. Sections of this title include: The Diabetic Foot and Ankle, Trauma, Sports Medicine, Arthroscopy, Forefoot Conditions, Ankle Arthrosis, and Reconstruction of Foot and Ankle Deformity.
