Published cooperatively with the American Shoulder and Elbow Surgeons (ASES), Instructional Course Lectures Shoulder and Elbow 2 is an exceptional compilation of selected lectures presented at past AAOS Annual Meetings.

From arthroscopic to open techniques, and common conditions to controversial topics, you will review key surgical procedures, preferred techniques and expert opinions with up-to-date and forward-looking commentary on shoulder and elbow surgery.

With exceptional editorial oversight by John W. Sperling, MD, each section includes an in-depth and informative introduction that summarizes these lectures and relates them to your daily clinical practice to help you maximize patient outcomes and minimize complications.
